WORK EXPRIENCES

Data Entry Operator
Department of Agrarian Development | 10/2024 – 12/2024
- Working as a Data Entry Operator in the Agrarian Development Department, I updated and handled proper farm records with timely submissions and seamless data processing. My role was to input, check, and organize significant information for departmental operation and decision-making purposes.

Trainee
Ceylon Electricity Board | 01/2024 – 06/2024
- I have completed an NVQ Level 4 in ICT, which included a 6-month training in the Ceylon Electricity Board, where I gained hands-on experience with IT systems, troubleshooting, and technical support, practicing my practical ICT skills.

PROJECTS

College Management System
Self Employed | 10/2024 – 01/2025
- Developed a College Management System using **PHP**, **CSS**, **JavaScript**, and **XAMPP** for local database management, enabling staff and students to register, log in, and manage profiles, with role-based access allowing students to edit their own details and staff to edit/delete records of all students and staff members.

AI Image Generator
Self Employed | 10/2024 – 01/2025
- A web app that creates stunning, high-resolution images from text prompts using **Hugging Face's API** models. Built with **HTML**, **CSS**, and **JavaScript**, it offers customizable prompts, aspect ratios, and a sleek dark/light theme.
